Next

Practice

**E**

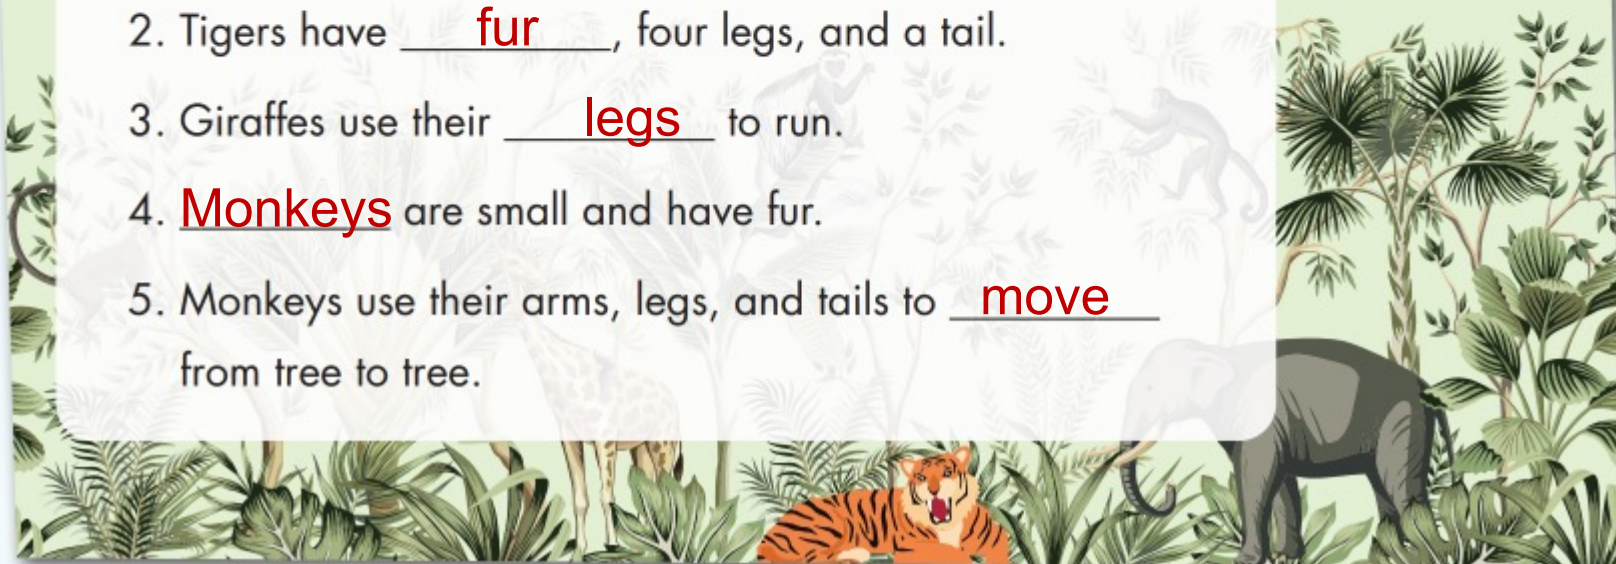

1. Read and fill in the blanks.

**FOCUS ON: Body parts of animals**

BODY PARTS OF ANIMALS

Tigers are big. They have fur, four legs, and one tail. Giraffes are big and tall. They also have four legs and a tail. Tigers and giraffes use their legs to walk and run. Monkeys are small and have fur. They use their arms, legs, and tails to move from tree to tree.

1. Tigers and giraffes are big.
2. Tigers have fur, four legs, and a tail.
3. Giraffes use their legs to run.
4. Monkeys are small and have fur.
5. Monkeys use their arms, legs, and tails to move from tree to tree.

2. Listen and read.
