The maze puzzle consists of a central area with four paths labeled A, B, C, and D on the left side, each leading to a frog character. On the right side, there are four paths labeled 1, 2, 3, and 4, each leading to an insect character. The paths are as follows:

- Path A connects to the top frog and ends at path 1, which leads to a ladybug.
- Path B connects to the second frog from the top and ends at path 2, which leads to a fly.
- Path C connects to the third frog from the top and ends at path 3, which leads to a dragonfly.
- Path D connects to the bottom frog and ends at path 4, which leads to a butterfly.
