Singapore or Kuala Lumpur? Which City Is Best for You?

Mary Clark, May 5

I recently traveled to fantastic cities. Kuala Lumpur and Singapore have many differences but they are both great places to visit. So what do you do when you only have time to visit one? Here are some points to help you.

There is a lot to see and do in both cities. Kuala Lumpur is bigger and you might need to travel quite far to get to some attractions. Both have many shopping malls but Singapore is more modern than Kuala Lumpur in some ways. The public transportation system is fast and comfortable. Malaysian buses and trains can be very crowded.

One of the best things about Asian countries is their food. Both cities have many tasty dishes, but in my opinion, food in Kuala Lumpur is cheaper. Now, you know the differences, which city is best for you?
